PROFESSIONAL SUMMARY:

Experienced full stack web developer with prowess in software quality engineering. Proficient in the MERN stack, leveraging React, Redux, and JavaScript to craft scalable web applications. Collaborative problem solver with exceptional attention to detail and a track record of effective teamwork.

EDUCATION:

Full Stack Development

Masai School, Bangalore | March 23 - December 23

Bachelor of Science (B.Sc) in Information Technology

Karmaveer Bhaurao Patil College, Mumbai University | 2018-2021

Higher Secondary Education

Tilak Education Society College, Mumbai | 2016-2018

TECHNICAL SKILLS:

CSS3

Git

React

Redux

HTML5

Responsive Web Design

JavaScript

Chakra UI

Tailwind CSS

Node.js

SOFT SKILLS:

Teamwork

Problem Solving

Attention to Detail

Time Management

PROJECTS

●

Online Medical Store

[Live Demo Link](#)

[Github Repo Link](#)

Features:

- Created an advanced online medical store using JavaScript, HTML, and CSS.
- Implemented a user-friendly interface with a comprehensive catalog of medical supplies and health-related products.
- Developed a shopping cart feature for users to conveniently add products, review selections, and proceed to secure checkout.
- Utilized local storage to securely store shopping cart items and allow users to resume shopping from any device.
- Ensured a responsive design for seamless browsing experience across various devices.
- Implemented interactive forms for prescription submission and contact purposes.
- Utilized a JSON server for efficient backend support and data management.

- **Nykaa online shopping website.**

[Live Demo Link](#)

[Github Repo Link](#)

Features:

- Developed a dynamic shopping cart feature that allows users to easily add products, review selections, and proceed to a secure checkout process.
Implemented local storage functionality to securely store shopping cart items. This enables users to resume their shopping experience seamlessly from any device without losing their selections.
- Ensured a responsive and adaptive design, guaranteeing a consistent and enjoyable browsing experience across a variety of devices, including desktops, tablets, and smartphones.
- Designed and implemented interactive forms for prescription submission and contact purposes. This enhances user engagement and provides a convenient way for users to interact with the platform.
- Utilized a JSON server to efficiently manage backend operations, ensuring smooth data handling and retrieval. This enhances the overall performance and responsiveness of the online store.

CERTIFICATION:

- Requirements Gathering for secure software development.
- WordPress and Drupal and Website Development.

WORK EXPERIENCE:

Word Publishing

Software Quality Engineer | Nov 21 - Aug 23(1 year 8 month)

Demonstrated experience as a QA tester, including knowledge of and practical experience with manual testing. QTP, JIRA, and tracking were tested for error resolution and issue reporting on JIRA.

Tasks:

- Reporting Bugs on JIRA and keeping track of them.
- Creating reports on Testrail.
- Worked on Jenkins

Projects:

- Adobe Photoshop Express (Android and iOS)
- Adobe Creative cloud
- Adobe Aero
- Adobe Photoshop.
